

MICRO STICKS

41-096-0097/0099/0100

The tip/head portion is made of micro-porous polyurethane foam which provides durability and absorbency.

This PU foam is extremely soft with ultra-low particle generation. The foam head is attached to a strong polypropylene stick mechanically without adhesive.

Features

- Low particulates – suitable for clean environments (class 100)
- Wipes cleanly, removes oil, dust and particles.
- Good water absorbency/retention
- Does not scratch sensitive surfaces.

Product Specifications

Porous Diameter:	10
Specific Density:	0.25 - 0.3 g/cm ³
Tensile Strength:	13 kg/cm ²
Elongation:	240 %
Absorption Capacity:	550% - 600%
Heat resistance:	130°C

Part Number and Dimensions

Part Number	Handle length (mm)	Tip length (mm)	Tip diameter (mm)	
41-096-0097	64	15	4	Slant tip
41-096-0099*	88	17	5	
41-096-0100*	88	17	8	

*Spare replacement (head) on request
