

Adapter

Model: **AK-ND-C16**

Product code	AK-ND-C16
Product type	Adapter
Output voltage	18.5 - 20 V
Output amperage	max. 5 A
Maximum power	100 W
The cable plug #1	USB type C
The cable plug #2	5.5 x 3.0 mm + pin
Product size (L x W x H)	38 x 24 x 11 mm
Package size (L x W x H)	97 x 70 x 12 mm
Net weight	6 g
Gross weight	7 g
EAN code	5901720138293
Warranty	24 months
Pin Length	12 mm

Description

The **Akyga® AK-ND-C16 USB-C adapter** is a practical gadget that makes a great addition to older laptop models. With it, you can charge a portable computer with a **5.5x3.0 mm connector** using a **USB-C PD** charger. This is particularly useful if you lose or damage your old power adapter, as you can easily replace it with a new universal USB-C charger.

The **USB-C laptop adapter** is a very practical solution. Thanks to it, we no longer need to carry multiple chargers with us, as we can charge almost any electronic device using a single USB-C power adapter. Therefore, if you are looking for a convenient and functional solution for charging your laptop, the Akyga® AK-ND-C16 USB-C adapter will be the perfect choice for you.

It is worth remembering that the USB-C adapter does not increase the power of the charger it is used with. Therefore, before using it, make sure that the power adapter has enough power to power our device.
