

 $\epsilon$ 

#### Features

- · Constant voltage design
- · Universal AC input / Full range
- Class II power unit, no FG
- · Fully isolated plastic case
- IP30 design
- · Small and compact size
- Cooling by free air convection
- Protections: Short circuit / Overload / Over voltage
- No load power consumption <0.5W
- 100% full load burn-in test
- · Low cost, high reliability
- · 2 years warranty

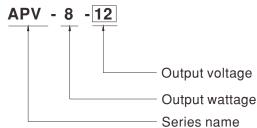

## Applications

- · Indoor LED lighting
- LED decorative lighting
- LED office lighting
- · LED signage

### Description

APV-8 series is one 8W AC/DC constant voltage mode single output LED power supply. It accepts the full range input 90~264VAC and provides three models with different output voltage, 5V, 12V, 24V, respectively, that the small wattage LED applications employ the most frequently. Exploiting Class II design (without FG pin) and adopting the 94V-0 flame retardant plastic enclosure, APV-8 ideally fits the entry-level LED applications.
