

# HDMI SWITCH WITH REMOTE CONTROL

FULL HD

3D

AUTO/MANUAL  
MODE

## EN TECHNICAL SPECIFICATION

High efficiency:	up to 2.5 Gbps
Switching modes:	automatic, remote and manual
Supported resolution:	Full HD TV up to 1080p, graphics up to 1440p, computer screen up to 1920x1200
12-bit Deep Colour support	
Three inputs and one HDMI type A 19 pin output	
Compensation of the cable losses by strengthening the digital signal	
Includes a remote control and a convenient to mount receiver with a 60 cm cable	
Does not require additional power supply in most applications. If necessary, you can connect an external 5 V DC power supply (not included)	

HDMI Switch, 3 ports + remote controller CL-28 – connects 3 devices, eg DVB-T set-top box, computer, DVD player, console Ps3/xbox, etc. to a single receiver such as a TV or monitor. Very useful when the receiver does not have enough HDMI inputs.
