

LgYc 300/500V

LgYc 300/500V Low voltage cable for rated voltage 300/500V with multi wire flexible conductor (Lg) with insulation made of heat-resistant PVC (Yc).

Application Single-conductor low voltage general purpose cable designed for use in fixed installations inside devices and inside lighting fixtures with the rated voltage not exceeding 300/500V. Insulation made of heat-resistant thermoplastic PVC with the maximum working temperature of +90°C.

Technical data

Conductor: Cu-ETP1 (acc. to EN 13602), multi wire, flexible, class 5 (acc. to EN 60228)
Insulation: PVC, type T13 (acc. to EN 50363-3)
Sheath: Not applicable
Temperature range: -40°C to +90°C
Standards: PN-87/E-90054
 Cables conform to the requirements of REACH Regulation and RoHS Directive.

Technical characteristics

LgYc 300/500V

Number of conductors x Nominal cross-section mm ²	Conductor structure		Resistance at 20°C (max.) mΩ/m	Insulation thickness (nom.) mm	Sheath thickness (nom.) mm	Outer diameter of cable		Approx. weight of cable kg/km
	Number of wires	Single wire diameter (max.) mm				(min.) mm	(max.) mm
