

INSTRUCTION MANUAL

Thank you for choosing Nichifu products.

Carefully read this instruction manual prior to use and follow the directions correctly.

Please keep the instruction manual for use when necessary.

■Applicable connector: NDC2420, NDC2824, NDC2018 (not applicable for cover-removal function)

■How to use:

1. Insert the wire to the end.

*Refer to the product specification sheet for applicable wire size.

2. Hold connector with NDC TOOL, and press down the cover into its housing.

*Confirm correct lockage (total 4 locking positions, 2 on each side)

■How to remove a cover:

1. Insert connector in the upright direction, to the jig on the edge of the NDC TOOL handle.

2. Press down the handle, and the cover will be released.

*Do not insert connector with wire insertion, into the jig.
