

PRO⁺ Professional Hot Melt Adhesives

Rapid high performance hot melt glues liquefy when heated and quickly fill gaps and stick to the materials. They cool, harden and reach high bond strength in several seconds. They also allow to move assemblies immediately - open time - to eliminate clamps and reduce drying time – set time - .

Applications:

Pro+ glue for metals, plastics, glass, wood and treated surfaces. Will work perfectly to repair car joints, fix electronic components, make wire potting.

Features:

Made of EVA basis

High resin based which provides high strength.

Low viscosity for high flow rate which increase productivity.

Storage

Unlimited in standard ambient conditions: 15 à 35° C. Store away from heat. Store in dry, dust-free, and well ventilated environment. Keep in cool and dark area.

Specifications

- Diameter : 12mm - Stick length : 190mm

- Color : Yellow

- Softening point (Ring & Ball): 80-96°C

- Open time: ~ 30 second - Set time: ~ 30 second

- Application range: 170 - 190 ° C according to the type of applicator and used materials
