

Qoltec Reverse electric strike | 12V

Product code: 52458

Qoltec brand reverse electric door strike powered by 12 VDC. Allows remote control of the mechanism of the access control system. Automatically releases the exit lock when power is cut off. Features excellent durability and corrosion resistance. Comes with a mounting plate.

SIMPLE OPERATING PRINCIPLE

Electric door openers are an essential component of access control systems not only in intercom installations, but also in elaborate building evacuation systems. Reversible electric door strike is often used in high-security areas. Its operation is very simple. Unlike an ordinary electric door strike, this system releases the entrance lock and unlocks access in the event of a power outage. **Product equipped with :**

- Adjustable latch tongue,
- Mounting plate,

EXCELLENT DURABILITY AND RESISTANCE TO EXTERNAL FACTORS

Qoltec brand symmetrical electric strike is made of zinc alloy and stainless steel. It features excellent durability and corrosion resistance, which is very important for use in outdoor conditions. Thanks to the durable materials, our product is sure to **serve you before many years**.

CONFIDENCE CONFIRMED BY A WARRANTY

The product comes with a 24-month warranty period from the date of purchase.
