## ■ TECHNICAL SPECIFICATION

Sensor: optical, Pixart PMW 3325  
 Switches: Huano Blue Shell (20M)  
 Paracord cable with USB connector – 1.8 m  
 Backlight: RGB – 16.8 million colors  
 Resolution: 200 – 10000 DPI  
 Refresh rate: 125 – 1000 Hz  
 Maximum tracking speed: 100 IPS  
 Communication: Wireless, 2.4 GHz  
 Frequency range: 2405 MHz – 2475 MHz  
 Radio frequency maximum power: 0 dBm, 1 mW  
 Battery capacity: 600 mAh  
 Charging time: 2.5 h – 3 h  
 Battery life: 60h RGB off / 6h RGB on  
 Number of programmable buttons: 6  
 Dimensions: 122x64x38 mm  
 Weight: 76 g ± 1 g  
 Mouse skates: PTFE (Teflon), additional set included

Are you tired of cables restraining your movements in the hardest clutches of a CS: GO game? Have you failed to disarm Spike in Valorant because the mouse cable tugged the bungee too hard? From today you can forget about it. Enjoy freedom of movement on your stand! With stable 2.4 GHz wireless connectivity and a long-lasting 600 mAh battery, you can participate in uninterrupted gameplay for more than 60 hours without recharging. Remember, even the best equipment needs recharging sometimes. If you find yourself running low on battery power, connect it up. You can use the ultra-soft Paracord cable with USB-C connector or the included adapter and collect more frags.
