Weather Resistant RJ-45 LAN Connector Hood

Waterproof **Harsh Environment** **Bayonet**

Features

1 **IP67 waterproof and weather resistant RJ-45 LAN connector cover for outdoor use**

2 **Compatible with board mounted RJ-45 jack LAN**

3 **Absorbs assembly tolerance up to ±1mm**

4 **Double lock design prevents incorrect wiring**

5 **High cable clamp strength**

Compatible with Existing RJ-45 LAN Connectors

IP67 & Weather Resistance Performance Without Having to Change the RJ-45 LAN Connector

- IP67 Water Resistance
- Weather Resistant Plastic Materials for Outdoor Use
- Robust Bayonet Lock

Outdoor Use Cable is Recommended

Conventional RJ-45 Connectors

Ex.: TM21 Series

Specifications

Operating Temperature	Plug	-25 to +60℃ (Includes the temperature rise due to current flow.)
	Receptacle	-55 to +85℃ (Includes the temperature rise due to current flow.)
Storage Temperature		-25 to +60℃
Mating Durability		100 times (Bayonet Lock)
Waterproof		IP67

- RoHS compliant
